LAKE COUNTY BUILDING DEPARTMENT  
513 CENTER STREET  
LAKEVIEW, OREGON 97630  
(541) 947-6033

SETBACKS AND OTHER CONDITIONS OF APPROVAL MUST BE STRICTLY OBSERVED. VIOLATION CAN RESULT IN REVOCATION OF THIS PERMIT, AND/OR OTHER REMEDIES ALLOWED BY LAW.

WHEN READY FOR AN INSPECTION, CALL 947-6032 OR 947-6033. At least 24 hours advance notice for inspection requests is required. Have the following information ready when you call: applicant's name, permit number, job address, type of inspection, when it will be ready for inspection, and directions to the site.

The following inspections are required for typical residential construction; however, other permits for other types of construction may require different inspections. Please consult with the Building Official.

1. Foundation Inspection: To be made after trenches are excavated and forms erected, and when all materials for the foundation are delivered to the job site. Where concrete from a central mixing plant is to be used, materials need not be on the job site.
2. Concrete Slab or Under-Floor Inspection: To be made after all in-slab or under-floor building service equipment, conduit, piping accessories, and other ancillary equipment items are in place but before any concrete is poured or floor sheathing installed, including the subfloor.
3. Framing & Insulation Inspections: To be made after the roof, all framing, fire blocking, and bracing are in place and all pipes, fireplaces, chimneys, and vents are complete and all rough electrical and plumbing are approved. All wall insulation and vapor barrier are in place.
4. Lath and/or Gypsum Board Inspection: To be made after all lathing and gypsum board, interior and exterior, is in place but before any gypsum board joints and fasteners are taped and finished.
5. Final Inspection: To be made after the building is complete and before occupancy.

APPROVAL REQUIRED: No work shall be done on any part of the building or structure beyond the point indicated in each successive inspection without first obtaining the approval of the Building Official. Inspections may be required for other permits such as electrical, mechanical, and plumbing.

APPROVED PLANS MUST BE ON THE JOB SITE AT ALL TIMES DURING WORKING HOURS. THIS PERMIT WILL EXPIRE IF WORK DOES NOT BEGIN, AND AN INSPECTION REQUESTED, WITHIN 180 DAYS, OR IF WORK IS SUSPENDED OR ABANDONED FOR MORE THAN 180 DAYS. SUSPENSION OR REVOCATION MAY OCCUR IF THIS PERMIT WAS ISSUED ON THE BASIS OF INCOMPLETE OR ERRONEOUS INFORMATION.

ANYONE PROCEEDING PAST THE POINT OF REQUIRED  
INSPECTIONS WILL DO SO AT THEIR OWN RISK,  
AND MAY BE SUBJECT TO ADDITIONAL INSPECTION FEES.
