Applicant Consent to Drug Testing

I understand that a requirement for employment with the Lake County Sheriff's Office is the successful completion of drug testing performed on a sample of urine given by the applicant. I understand that these samples are tested for the presence of illegal drugs, legal drugs and other substances that might adversely affect job performance. I understand that a positive test will disqualify me at this time from further consideration of employment.

By my signature below, I hereby agree and consent to provide a urine sample at a facility designated by the Lake County Sheriff; I agree and consent to have such sample tested for the presence of illegal drugs, legal drugs and other substances; I authorize the release of test results to the Lake County Sheriff's Office for its use in evaluating me for employment; and I release the Sheriff and Lincoln County from any and all liability and claims incident to such sample taking, testing and use of test results.

I understand and agree that if I begin work prior to taking this test or prior to the results being received by the Sheriff, I will be a temporary and contingent employee until such time as I successfully complete the urinalysis test. I understand that any trial service period is in addition to, and independent of, the requirement that I successfully pass the urinalysis test.
