SURVEY FOR: Great Western Railway
Loveland Colorado

SURVEY BY: Anderson Engineering and Surveying
HC 60 Box 730
18 South 6 Street Room 207
Lakeview, Oregon 97630 (503) 947-4407

LOCATION OF SURVEY: SW 1/4, NW 1/4, Section 15, Township 39 South
Range 20 East, Willamette Meridian
Town of Lakeview, Oregon

PURPOSE OF SURVEY: To locate the east and south boundaries of
the parcel of land as shown on the plat. This
parcel is owned by the Lake County Railroad
Commission and is used by Great Western Railway
for normal railroad operations.

PROCEDURE: I began the survey at the 1/4 corner common to sections
15 and 16 and surveyed north to the section corner
locating additional monuments along the way as shown on
the plat. The boundary of the parcel was determined by
extending the west line of south N street record deed
distance and using record deed distance north along the
section line from the 1/4 corner as shown on the plat.
These two points were then connected with a line whose
distance differs from record deed information by 0.55
feet, however the deed call for this course was "to the
section line" taking precedence over the called
distance.
