## **OHA Update**

### **Oregon reports 6 new COVID-19 deaths, 49 new COVID-19 cases**

**PORTLAND, Ore.** — COVID-19 has claimed six more lives in Oregon, raising the state's death toll to 70, the Oregon Health Authority reported at 8 a.m. today.

Oregon Health Authority also reported 49 new cases of COVID-19 as of 8 a.m. today bringing the state total to 1,785. The new COVID-19 cases reported today are in the following counties: Clackamas (3), Deschutes (2), Jackson (1), Lane (1), Linn (3), Marion (8), Multnomah (19), Polk (1), Tillamook (1), Umatilla (1), Washington (7), and Yamhill (2). To see more case and county-level data, go to the Oregon Health Authority website, which OHA updates once a day: [www.healthoregon.org/coronavirus](http://www.healthoregon.org/coronavirus).

Oregon's 65th COVID-19 death is an 88-year-old woman in Clackamas County, who tested positive on April 15 and died April 16 at Adventist Medical Center. She had underlying medical conditions.

Oregon's 66th COVID-19 death is a 95-year-old man in Linn County, who tested positive on April 2 and died April 14 at his residence. He had underlying medical conditions.

Oregon's 67th COVID-19 death is an 86-year-old man in Linn County, who tested positive on April 6 and died April 15 at his residence. He had underlying medical conditions.

Oregon's 68th COVID-19 death is a 65-year-old woman in Marion County, who tested positive on March 26 and died April 6 at Salem Hospital. She had underlying medical conditions.

Oregon's 69th COVID-19 death is a 91-year-old woman in Marion County, who tested positive on April 12 and died April 16 at her residence. She had underlying medical conditions.

Oregon's 70th COVID-19 death is a 76-year-old woman in Multnomah County, who tested positive on April 7 and died April 11 at Adventist Medical Center. She had underlying medical conditions.

**Epidemic modeling report indicates physical distancing measures are working**

Today OHA released an update to its epidemic modeling report, which helps Oregon's leaders understand the progression and the projections for the COVID-19 outbreak.

"Today's modeling update tells us that statewide mitigation efforts are keeping the caseload and hospitalizations well below the numbers we would have seen absent our efforts as a state," said state epidemiologist Dean Sidelinger, MD. "We are encouraged by the continued success of our mitigation efforts, which are allowing us to begin planning for suppression strategies for when the statewide measure can begin to be lifted."

## **Public Health Update**

56 tests have now been completed; 49 negative test results have come back with 7 tests pending.
