OHA Update

PORTLAND, Ore. — The state's death toll from COVID-19 remains unchanged from yesterday and remains at 109, the Oregon Health Authority reported at 8 a.m. today.

Oregon Health Authority reported 65 new confirmed cases and 14 new presumptive cases of COVID-19 as of 8 a.m. today bringing the state total to 2,759. The new COVID-19 confirmed and presumptive cases reported today are in the following counties: Benton (4), Clackamas (1), Clatsop (1), Coos (2), Deschutes (1), Hood River (1), Jefferson (1), Lane (1), Linn (10), Marion (17), Multnomah (15), Polk (8), Umatilla (6), Washington (10), Yamhill (1).

Note: The state is now including presumptive COVID-19 cases in its daily reports, consistent with recently amended guidance from the Centers for Disease Control and Prevention.

A presumptive case is someone who does not have a positive PCR test -- a "Polymerase Chain Reaction" that confirms if a person has COVID-19 -- but is showing symptoms and has had close contact with a confirmed case. If they later test positive by PCR, those will be recategorized as confirmed cases.

Public Health Update

103 tests have now been completed; 102 negative test results have come back with 1 test pending.

Lake Wellness Center Update

Lake Health Update

On Monday, May 4th, Lake Health District will begin the reopening process. The first phase of this process will allow us up to 50% of patient levels prior to COVID-19. This reopening phase includes the clinic(s), surgery, and ancillary services such as radiology, laboratory, physical therapy, etc.

Traffic control will be modified to ensure patients will be routed and staged to specific areas for the department/clinic they are to visit. Screening personnel will continue to screen all

patients that will be entering the building. Please allow extra time for screening prior to appointments.

Greeting personnel will escort patients to the appropriate location, whether it be the main entrance of the facility or one of the clinics.

All patients will continue to be provided with masks, if they do not have an appropriate one already. Patients will also be directed to our hand hygiene stations.

There will be no changes to our current patient/visitor restrictions facility wide.

Thank you for your continued support and patience as we navigate the reopening process.
